WHO WE ARE

FROM IDEAS TO MARKET-READY PRODUCTS AND SERVICES

In an uncertain world, the only constant is change.... and we help to enable it in the best way possible. When undertaken proactively, any disruption can be a competitive advantage. But to make it one, it needs innovation, investment, skilled talent and a technology partner like CloudLeaf.

Enterprise-level Transformation

Next-Gen Product Engineering

Digital Platforms for Exceptional CX

MEET OUR TEAM

MURTHY ANUPINDI

Founder and CEO

Expertise: Strategy, Delivery, Business Development

Experience: AT&T, Wipro, Deloitte, SAP

DR. A.L.RAO

Expertise: Telecom and Technology Solutions

Experience: Wipro, Trianze

MUKESH NAGPAL

Expertise: Modernization, Cloud, Data Management

Experience: Citibank, Birch Telecom

MEET OUR TEAM

ANIL CHILLARIGE

SURESH VEDULA

Expertise: Technology, Cyber Security

Experience: Atollogy, SmartLinx

Expertise: Business Development

Experience: Nokia, Motorola

CREATING CONNECTED, CONSISTENT EXPERIENCES

At CloudLeaf, we work on our clients' value propositions to deliver cutting edge experiences efficiently and cost effectively. Powered by years of experience in the digital domain and expertise in new, advanced technologies, we help clients navigate the labyrinth of Cloud computing, data science, digitalization, automation, and cyber security paradigms:

OUR MISSION

WE BELIEVE IN TECHNOLOGY AND ITS POWER TO CHANGE THE WAY THE WORLD OPERATES.....
WE CREATE THE SPACE IN WHICH OUR CLIENTS CAN USE TECHNOLOGY TO DRIVE GROWTH, INNOVATION, SUSTAINABILTY, AND A BETTER FUTURE.

CLOUD MIGRATION

MODERNIZATION

AI-DRIVEN DATA ANALYTICS

CLOUD MIGRATION – ACCELERATING INNOVATION AND IMPACT

We help our clients accelerate their cloud adoption with minimal risk and maximum benefit. Our solutions are focused on driving efficiency and reducing costs using Cloud-based tools and technologies.

- Cloud Assessment and Strategy
- Cloud Readiness Assessment
- Cloud Architecture Design
- Application Migration
- Application Refactoring
- Database Migration
- Cloud Security and Compliance
- Cloud DevOps and Automation
- Infrastructure Migration

- Platform Migration
- Disaster Recovery and Backup Solutions
- Cloud Cost Optimization and Management
- Cloud Management and Monitoring
- Managed Cloud Services
- Hybrid Cloud Integration
- Cloud Governance

MODERNIZATION - TRANSFORMING THE ECOSYSTEM ONE TECHNOLOGY AT A TIME

Digital transformation makes sense only when the underlying systems support the changes. This requires modernizing the infrastructure, platforms and every other aspect of the technology ecosystem to make the application modernization successful.

- Legacy Application Modernization (Rehosting/Replatforming/ Refactoring)
- Containerization and Orchestration
- Serverless Computing
- Microservices Architecture
- Cloud-Native App Development

- Application Integration
- IoT and Edge Computing
- AI and ML-Based Analytics
- Blockchain Solutions
- Security and Compliance Modernization
- Disaster Recovery and Business Continuity
- Database Modernization

# DATA, ANALYTICS AND AI - MAKING DATA INTELLIGENT

- **Business Intelligence**
- **Data Visualization**
- **Predictive Analytics**
- **Data Integration**
- **Data Science**
- **Data Governance**
- **Data Analytics**
- **Data Quality Management**
- **Data Warehousing**
- **Data Lakes**
- **Data Fabrics**
- **Data Mesh**

We help our clients derive smarter business strategies and improve risk management by identifying and solving their challenges quickly. We create systems that can intuitively improve operations using intelligent data models. We provide enterprise data management systems that can validate, secure, store, and distribute data across the enterprise within set parameters of quality, cost and time.
